EKC Group - Folkestone College Appointment

EKC Group - Folkestone College Appointment

👤 Daniel Deed

📅 8th April 2019

We are pleased to announce that we have been appointed to provide Project Management, Quantity Surveying and Principal Designer services, in support of the EKC Group development at their Folkestone College site.

The development will encompass the construction of a new building at the site off Shorncliffe Road, providing improved teaching facilities and student spaces to support the Colleges ambition to provide opportunities for young people to learn and develop in a modern inspiring space.

The proposed development supports the EKC Group objectives to ensure their colleges are at the heart of the local community and to lead dynamic development of skills education across East Kent.

We are really looking forward to working with the EKC Group and Folkestone College to deliver a successful project that will have a positive impact on the local community

— Dan Deed, Partner
