📅 15th May 2018

We are very pleased to announce we have been appointed by Emmaus UK to provide Quantity Surveying and Cost Management services to deliver new facilities at Archcliffe Fort in Dover where we will be working alongside companions, the community manager, trustees and the professional team including HMY, Crofton and MLM. The project aims to provide an extension to the existing shop to replace a dilapidated single storey building, along with a new workshop and refurbished warehouse facility within the heritage environment of the fort.

Emmaus is a fantastic charity who work hard to end homelessness. By providing a stable home and meaningful work, they help companions to regain their self-esteem and find a positive way to move forward with their lives.

The new facilities will enable the community created by Emmaus at Archcliffe Fort in Dover to continue to thrive.
